Professional Summary

Certified **Pega Decision Consultant Developer** with nearly 3 and a half years of hands-on experience architecting and deploying **AI-driven, omni-channel decisioning** solutions using **Pega Customer Decision Hub (CDH)**. Proven ability to design scalable multi-tenant architectures, build real-time adaptive strategies, and lead customer engagement initiatives across **banking and HR services**. Passionate about leveraging **Next-Best-Action (NBA)** and **adaptive analytics** to drive personalized, data-informed customer journeys.

Technical Skills

- **Pega Platform:** Pega Customer Decision Hub (CDH), NBA Designer, Strategy Framework, Real-Time Containers, Adaptive Models, Offers & Treatments, Control Groups, Decision Mix
 - **Decisioning & Campaign Orchestration:** Eligibility Rules, Intent/Offer/Channel Contention, Frequency Management, Volume Constraints, Follow-Up Logic, Global Attributes
 - **Omni-Channel Enablement:** Experience designing and implementing Inbound/Outbound journeys via Email, SMS, Web, and Mobile
 - **Debugging & Troubleshooting:** Live UI, Clipboard, Tracer, Log Analysis for performance and error resolution
 - **Agile Methodology:** Sprint planning, user story analysis, daily stand-ups, effort estimation, unit testing
 - **Soft Skills:** Strong analytical and problem-solving abilities, effective written and verbal communication, detail-oriented, deadline-driven
-

Professional Experience

Pega Decision Consultant Developer

Adqura IT Solutions Pvt. Ltd.

August 2022 – August 2025

Project: Alight Solutions (HR, Benefits & Payroll – USA)

Role: Decisioning Consultant

Overview:

Worked as part of a large-scale, AI-powered personalization platform for Alight Solutions,

serving over 35 million employees and 70% of Fortune 100 companies. Built a scalable, omni-channel, multi-tenant decisioning layer on top of Pega CDH.

Key Contributions:

- Designed and implemented multi-tenant decisioning strategies, enabling new client onboarding in under 8 minutes.
- Created adaptive content logic for personalized messaging based on user attributes (e.g., gender-based dynamic prefixing in email subject lines).
- Built Decision Mix logic to select treatments per channel-intent combinations using both simple and channel-intent cutoff configurations.
- Implemented follow-up strategies to automatically resend offers/reminders if customers did not respond within a set timeframe.
- Developed channel eligibility and pick-best-channel logic using recent touchpoint data, user preferences, and adaptive models.
- Configured contentions (intent, offer, channel) and volume constraints to control offer delivery logic across channels.
- Managed campaign delivery using frequency controls (daily, monthly, specific dates).
- Delivered an ecosystem that allowed Alight to rapidly deploy new offers, reducing go-to-market time from months to weeks.

Project: Akbank (Banking – Turkey)

Role: Pega Developer

Overview:

Part of a service-based Pega CDH implementation for Akbank, delivering inbound and outbound decisioning for personalized banking offers.

Key Contributions:

- Developed eligibility rules based on client-defined catalogues to target the right customers with relevant offers.
- Created and managed offers and treatments specific to Akbank's financial services use cases.
- Supported multi-channel delivery across inbound and outbound touchpoints.
- Ensured alignment with banking compliance and performance requirements.

Pega Senior Decision Consultant Developer

AI4process Pvt. Ltd.

August 2025 – Present

Project: Verizon (Telecom)

Role: Decisioning Consultant

Overview :

The Verizon project focused on enhancing customer engagement and personalization by implementing Pega Customer Decision Hub (CDH). The goal was to deliver real-time Next-Best-Action recommendations across channels such as web, mobile, email, and call center. The project involved designing decision strategies, implementing business rules, integrating customer data, and enabling AI-driven targeting to improve customer experience and marketing effectiveness.

Key Contributions:

- Designed and implemented end-to-end decision strategies including eligibility, applicability, arbitration, and engagement policies.
- Built and optimized Next-Best-Action (NBA) logic using strategy components such as Switch, Filter, Decision Table/Tree, and Predictive Models.
- Collaborated with business teams to translate marketing requirements into scalable and configurable CDH decision logic.
- Integrated data sources and ensured high-quality data flow for real-time decisioning.
- Developed contact and frequency policies to ensure compliance, customer preference handling, and controlled offer exposure.
- Performed unit testing, debugging, and tuning of strategies to ensure accuracy and performance.
- Supported cross-channel activation of NBAs and validated business outcomes through simulation and monitoring.

Certifications

- Pega Certified Decisioning Consultant (PCDC)

Education

- Bachelor of Technology in Computer Science And Engineering from Kshatriya college of engineering.
- Diploma in Computer Science And Engineering from Kshatriya college of engineering (CSE).
- 10th from sun flower high school
