

## Incident Handling and Response Track

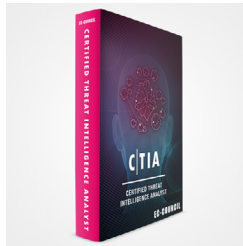

CND

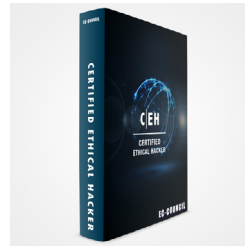

EHCS

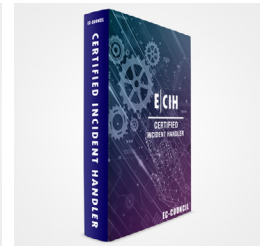

CSA

CTIA

CEH

ECIH

### This track is designed to teach you the skills you will need to become a professional Incident Responder in one year!

Cybersecurity Professionals who are interested in pursuing incident handling and response as a career require comprehensive training on Incident Handling and Response (IH&R) concepts as well as real-world scenarios.

To help you master Incident Handling and Response (IH&R) concepts, we have built a track that bundles multiple certification courses to create the most comprehensive Incident Handler & Response program on the market.

This track begins with the Certified Network Defender to get you started with a strong network security foundation. From there, you will take the Ethical Hacker Core Skills where you will learn to examine network traffic at the binary level, master the TCP/IP protocol, as well as essential UNIX and Linux survival skills. Additionally, you will be introduced to vulnerability assessments and hacking methodology.

Once you have a solid foundation, you will be ready to move into the realm of Incident Handling and Incident Response. The Certified SOC Analyst and Certified Threat Intelligence courses will cover end-to-end workflow, procedures, technologies, and processes executed in a CSA as well as the typical Security Incident and Event Management (SIEM) use-case development and alert triaging process. A unique addition to EC-Council's Incident Handling & Response track is the addition of the Certified Ethical Hacker (CEH) course, which will teach you the threat hunting skills that are so important to the role.

The capstone to this track is Certified Incident Handler which will teach students best practices to detect, validate, contain, and eradicate security incidents.

### The following courses are included in the bundled rate:

- Certified Network Defender (CND) - \$450
- Ethical Hacker Core Skills (EHCS) - \$450
- Certified SOC Analyst (CSA) - \$388
- Certified Threat Intelligence Analyst (CTIA) - \$388
- Certified Ethical Hacker (CEH) - \$450
- Certified Incident Handler (ECIH) - \$388

**Retail Value: \$2,514**

**Bundle rate: \$1,099**

**Savings: \$1,415**

### Bundle includes the following features for each course:

- Instructor led training modules
- Official e-courseware
- iLabs access
- Certificate of Completion for each course
- Exam Voucher for each course\*

Discount not stackable. Single User License (non-transferable). \*No exam available for Ethical Hacker Core Skills. The clock starts ticking 24 hours from when payment is received. After a period of one (1) year the program expires, and all courses are turned off.
