Directions for below mentioned questions: Read the following passage and answer the questions.
The first step is for us to realise that a city need not frustrate us; it can be among other things, a mechanism for enhancing life, for producing possibilities of living which are not to be realized except through cities. But, for that to happen, deliberate and drastic planning is needed. Towns as much as animals, must have their systems of organs—those for transport and circulation are an obvious example. What we need now are organ systems for recreation, leisure, culture, community expression. This means abundance of open space, easy access to unspoiled Nature, beauty in parks and in fine buildings, gymnasia and swimming baths and recreation grounds in plenty, central spaces for celebrations and demonstrations, halls for citizens' meetings, concert halls and theatres and cinemas that belong to the city. And the buildings must not be built anyhow or dumped down anywhere; both they and their groupings should mean something important to the people of the place.

Q 1 Cities can be made to provide full facilities for life, and

Ops: A. ☐ these can be mechanically designed.
B. ☐ proper transportation facilities should be provided.
C. ☐ cinemas, theatres and concert halls should be built there.
D. ☐ these are not necessary for a city.
E. ☐ Skip the question
