SKILLS

- Machine Learning python
- java
- c++
- Data Structures and Algorithms
- devops
- javascript

EDUCATION

BACHELOR OF TECHNOLOGY Computer Science And Engineering(AI&ML)
KALASALINGAM ACADEMY OF RESEARCH AND EDUCATION
2021 – 2025 | virudhunagar, TN
CGPA:8.6(up to V semesters)

INTERMEDIATE
NARAYANA JUNIOUR COLLEGE
2019 – 2021 | Vijayawada, AP
CGPA:9.6

SECONDARY EDUCATION
NALANDA GROUP OF SCHOOLS
2018 – 2019 | Ongole, AP
CGPA:10

PROFILE

I consistently seek opportunities for learning and self-improvement as a dedicated and driven student. Throughout my educational journey, I've developed a strong commitment to hard work and shown flexibility in facing unfamiliar situations. My passion for resolving issues and fostering innovation motivates me to seek roles where I can effectively utilize my abilities and make meaningful contributions.

PROFESSIONAL EXPERIENCE

Internship in AWS Solution Architecture

- Completed a 3-month remote internship in AWS Solution Architecture via Forage's Virtual Experience Program.
- Designed straightforward and scalable hosting solutions using Amazon Web Services (AWS).
- Developed a comprehensive understanding of various AWS services and their practical applications.
- Collaborated with a virtual team to address complex architectural challenges and enhance system performance.
- Executed hands-on assignments focusing on cloud infrastructure, security, and cost optimization.

PROJECTS

Robot-Assisted Inventory Management System

- Developed an inventory management system using Java for robotics programming, integrated with sensors and networking for real-time data collection and tracking.
- Designed a user interface to monitor inventory levels and generate reports, utilizing Java or Python for backend development.

HAND GESTURE RECOGNITION

- Used Machine learning algorithms to analyze and interpret hand movements captured by cameras.
- Users control devices and interact with interfaces using hand gestures, replacing physical touch and remote controls.

PLANT DISEASE DETECTION

- Implemented machine learning algorithms to accurately identify plant leaf diseases using visual symptoms and utilized image processing techniques to enhance image quality for precise diagnosis.
- Developed a comprehensive database of annotated leaf images to train, validate, and improve the disease detection model.

ACADEMIC AND EXTRACURRICULAR ACHIEVEMENTS

- Earned the Prathiba Award in higher education for achieving a perfect 10 CGPA.
- Secured medals in 4 national and state-level martial arts championships.
- Participated and excelled in the Smart India Hackathon, addressing problem statement AK209.
